My Work Experience

Full Stack Developer @ [MyAnatomy.in](#)

- Developed the pricing page for Mapit using [Angular](#), implementing [responsive layouts and user-friendly UI](#).
- Designed and developed the entire [MyAnatomy](#) website end-to-end.
- Collaborated on both [frontend](#) and [backend](#) tasks, managing the full development lifecycle from design to deployment.
- Build the [Reseller Page](#) for the [Mapit](#) project, focusing on feature [integration](#), [usability](#), and [design consistency](#).
- Created and documented reusable UI components in [Storybook](#) for consistent development.

Frontend Developer @ [bpdStudio](#)

Oct 2023 to Apr 2025 - Bhopal

- Developed and deployed responsive web interfaces using [HTML](#), [Tailwind-CSS](#), [TypeScript](#), and [NextJS](#)
- Built reusable and scalable [UI components](#) to streamline development workflows.
- Optimized application performance through [code refactoring](#) and efficient [asset management](#).
- Integrated [APIs](#) and collaborated with backend teams to ensure seamless data flow.

My Projects

[DishWish](#) (AI Generated Recipe)

- Optimized search and platform performance with [intelligent recipe suggestions](#), improving [retrieval time](#) by [30%](#).
- Designed recipe computation logic in [TypeScript](#), [reducing computation time](#) by [40%](#) and increasing NPS by [30%](#).

[VisionDrive](#) (Car Rental Services)

- Built a responsive vehicle showcase platform with [Next.js](#), [Tailwind CSS](#), and [TypeScript](#) for dynamic 360° car views.
- Implemented optimized image rendering, smooth transitions, and integrated [Razorpay payment gateway](#).

Achievements

- Secured **1487th** rank out of 28000 in Leetcode Weekly Contest
- Solved **400+** problems on Leetcode and GfG
- Secured **AIR 412** in CodeChef Feb Challenge

Skills

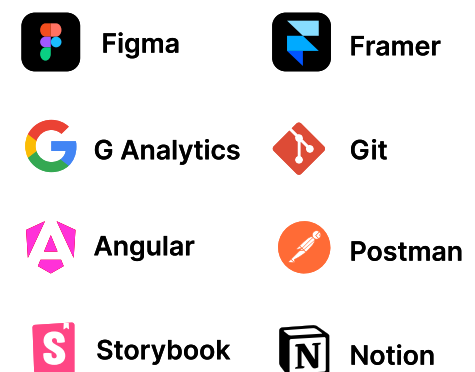

Design

UI Design Design Thinking

Tech

TypeScript JavaScript C++
